Title : Impacts of Agriculture

(ii) Disadvantage of use of Agriculture

(iii) Benefits of Science

Total words : 180

Summarized words : 60

Science provides many advantages for humans. It promotes beneficial things and eradicates bad things. Before agriculture, human life was tough and death rate was high due to famine. Gradually, people's lives became easier because of agriculture. But that method of agriculture is not affordable in this period. Because it established slavery, monarchy, rule of few people, and decreased the standard of life. In

Short, it created number of problems
for humans.
