My favorite Subject

As a student, we have many subjects to study. The subject which I love to study and interesting for me to study is History. I can say that history is my favorite subject.

History is a subject that gives us an idea about our past, revolutions and other important events. It would help me to read about the historical background of any country, historical places etc.

The teaching style of my History teacher is too good. She teaches us with every angle of the event. Similarly, she made a chart on board for explanation and explained each event in the form of a story. This had made the study easier and interesting for every student. That is the reason I took interest in the history subject.

This subject speciality is that it provides us inspiring stories related to our national heroes and world leaders like, to read about Alama Iqbal, Quaid-e-Azam, etc. We have come to know about the existence of several civilizations, it also reveals our culture and heritage.
