Sub heading: Social Media affects the socialization and communication skills

PMS (Pb) Paragraph structure

Sentence 1 (Topic Sentence)	The excessive usage of social media inversely impacts the socialization and communication skills of youth.
Sentence 2 (Significance of the issue)	Owing to the fact that youth are learning to do most of their communication while looking at a screen, not another person.
Sentence 3 (Supporting point 1)	Youth are masters at keeping themselves occupied in the hours after college until way past bedtime.
Sentence 4 (Example of SP 1)	As per the BETA Research Center & Small Insights of January, 2023; there are approximately 77.8% social media users over age 18 worldwide. These statistics demonstrate the addiction of social media among youth; showing the fact that when they are not studying, using their phones for texting, sharing, streaming videos, etc.
Sentence 5 (Supporting point 2)	Moreover, social media hampers the non-verbal learning ability of youth.
Sentence 6 (Example of SP 2)	According to Catherine Steiner-Adair, a clinical psychologist, kids are missing out on very critical social skills. Texting and online communication creates a non-verbal learning disability where in youth, whose body language, facial expression, and even the smallest kind of vocal reactions are rendered invisible (The Big Disconnect).

No. of words: 160
