

My Favourite Subject

There are many subjects in universities and schools. But, everyone has his/her own personal favourite subject. Personally my favourite subject from university time is European history; because, it takes short time to read and understand: treaties, agreements e.t.c. Therefore, I managed to take marks - Fine marks - in this subject. It is taught by ma'am - Humera, she has a fine grip on this; thus, she takes tests, quizzes. Nevertheless, this is - no doubt - my favourite subject. Because, I know: I have a gorgeous grip, and keen too, in history subjects: history about wars, and consequences. More or less everyone has his favourite subject in which they glamourise themselves. i.e. Maths, English e.t.c.
