Translation (2022)

Every era brings with itself such matters that are liked by nobody but they have to accept them. Sometimes, nature tests us by bringing so many things before us that are not useful to us, or not related to us, still, we have to make it part of our lives. The same is going even today. Each century has been bringing with itself such changes that are innovative as compared to previous ones. The advancement of natural sciences has bestowed man a lot which is considered as waste of scientific and economic processes. If nature gives us fruit and at the same time, binds us to dispose off its peels properly. If it's not done properly, the environmental pollution worsens.
