The sage said that there is a mountain across the forest where that flower grows, whose fragrance recovers the blind. But the mountain is very high - and there are many rocks, thorny bushes and large stones on it which blocks the way. Many people came and went to go up on the mountain. Perhaps, that is why, there is sorrow and pain in the world and man is searching for light.

Every era brings such situations, which ~~are~~^{were} not liked by many but have to accept it. Sometimes, nature tests us by bringing a lot of such things in front of us, which we did not need and irrelevant, but still we have to live with it. (which ~~is~~) Today, same thing is happening. Every ~~current~~ century brings new changes with it which were new to the previous century. Progress of natural sciences and technologies gives a lot of such things to the men which might be considered as the intellectual and economic trash. Nature gives us fruit as well as obligates us to dispose off their peels properly. Otherwise, it will increase the environmental pollution.
