Title: Lack of Moral value: ~~problems and its~~
~~Solutions~~

Bringing social morality is necessary for
framing human brains especially at present. Typically,
teaching human mind is a greater challenge for education
institutions. In the past, positive impacts of moral value
were removed in our religions. Resultantly, the inappro-
priate behaviours have become problems for human
being. Therefore, Machiavellian stated that powerful authority
cannot understand the basic cause of immorality. However,
educational sectors have potential to bring moral value
through effective coaching but providing fundamental rights
for humanity is also imperative.
