

Argumentative Essay: Outline

Outline

Topic: People have become overly dependent on technology.

1- Introduction

WRITE THESIS STATEMENT

Thesis Statement

2- Crunch Paragraph

3- How people are dependent on technology? (Thesis Statement)

- People overdepend on technology to contact with humans.
- Students depend on machines rather to use own intellect.
- Machines are fixed for industrial jobs rather than men.
- Women rely on machines for their household jobs.
- People focus on technology for their necessities rather than knowledge.

4- People are not completely dependent on technology. (Anti-Thesis)

- Not all people rely on technology for contact.
- Students use their intellect and not rely on computer.
- Machines are not working in all industries.
- Not all women get their household job from machines.
- Even, today people use their knowledge despite technology.

5- Machines are used almost in all areas. (Synthesis)

- Except very few, all people are imbued with technology.
- Majority of students work on computers.
- All developed countries get industrial work from machines.
- In modern time, household job is also performed by machines.
- Most of people, in order to save their time use technology for their necessities.

6- Conclusion
