Subject: Importance of moral education
in schools

Sir,

I am writing to express my deep concern regarding importance of moral education in schools. Moral values are given fundamental importance in our society. It would not be wrong to say that morality is soul of our society.

Few years back, moral education was fundamental part of school education. It was not only widely included in syllabi but teachers were separately committed to moral values.

Now a days, the conditions have changed. The education has become all about cramming and getting marks. In this situation, It appears that future generations will be deprived of moral values.

It is significant that moral education should be included in syllabus, and there should be primary focus on it. So that, our future generations equipped with moral values can prosper with fast pace along with having kind heart and sympathy towards other people.

Thank you for your attention to this

matter.

Yours truly,
X.Y.Z.
