

Date

Precis:

Hoarding money is the chief goal of everyone's but for intellectuals to have dinner is the primary object. As great minds like to make money it ought to be like but work should be choice. Like a soldier who is paid to meet their basic need, but primary goal is to win battles, clergies to preach and to guide people and doctors to treatment-patients. However creative minds prioritize their work over money even though second one is important.

Title: Prioritizing work over money
