Translation - Test → ①

If the world does not attract you, if the tears come in your eyes because of fear of God. If the concept of Hell creates fear in you, if you worship Allah as it is being done, if goodness attracts you and your footsteps stop from going towards evil way then you are righteous. Some are righteous, some become righteous. To become righteous is matter luck. To become righteous is an act of purification of soul. It takes time and to bear difficulties.
