

Commonalities in World Wars: Events, Causes, Effects

The two world wars which Germany had fought to become supreme were similar. The United States played role to safeguard by remaining itself unbiased. Although, German lost each of them. Japan allied with German and Russia remained calm yet it did not attack on Poland and Baltic states. The second war had worst consequences on common people. At last, the both oppositions fought with missiles and Great Britain had faced major casualties. Kids were escaped from cities to state and scarcity of edible things happened. No reservoirs remained in states as compare to other alliance countries. Technologists made much findings in the time of combat. Many forms of combats were seen as mechanical combat in North America and Burma. They

have experienced the weapons but
never used them.
