

"Nuclear Challenge to world Peace during 21st century"

NO: _____

DATE: _____

Topic
Science The most catastrophic invention of 21st century is nuclear technology that is directly linked with global peace.

Supporting Point It has capacity to wipe out existence of life from globe completely if a nuclear war breaks out among major super powers.

Argument No. 1 According to the "Federation of American Scientists Series of world nuclear forces, 2022" 12,700 warheads in the world. The USA & Russia alone have 5500 and 6000 warheads respectively out of which one third are actively deployed and ready to end many huge aircrafts.

Example 1 The cumulative destruction capacity of these nukes is 150,000 more than that of used in Japan which killed almost 300,000 persons.

Conclusion Consequently, the existence of nuclear weapon technology is lethal for global peace in 21st century.
