

Topic

Neglect of Enhancing Intellectual Ability in our Education System

OUTLINE

1. Introduction → (Thesis statement)

2. Crunch paragraph

3. Importance of intellectual ability

- Enables critical thinking among students.
- Gives rise to efficient discussions in classroom.
- A good activity for creative minds.
- Facilitates in sound reasoning and logical thinking.
- Makes the standard of learning better.
- Gives rise to a Quality Education System.

4. How enhancing the intellectual ability is neglected in our <sup>education</sup> system.

- Following same old traditional modes of teaching.
- No creative or critical exercises.
- Students with different ideas and approach are not encouraged.
- More focus on obtaining marks.
- Societal norms and trend of focusing on mere degrees.
- Lack of interest among students for knowledge.
- No focus on hiring subject specialists for students.

5. How intellectual ability can be enhanced.

- Introducing new and advanced teaching methods.
- <sup>including</sup> Critical and creative thinking exercises as mandatory part of course.
- More focus on knowledge based learning.
- Encouraging students to be creative and think different/unique

6. Conclusion
