

Cpec is expected to transform positively the whole socio economic condition of Pakistan

Thesis statement

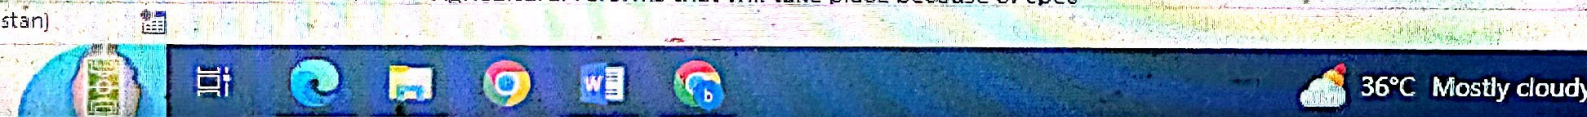

China's vision of BRI and CPEC aims to redefine the socio economic patterns of the state. It can turn it into a transit corridor and can ensure dollar influx aiming to develop the country.

A. Introduction

Yesterday's highlights on social media unveiled delhi manufacturing their own Mercedes, on the other hand Tehran being successful in signing an agrèement with Riyadh which would end a 40 year long enmity between the two but what good is in store for Pakistan? Cpec-it seems to be the only cure of the country's terminal and prolonged socio-economic illnesses. Cpec can transform Pakistan into a transit corridor. It can enhance its development in the energy sector. These would in-turn result in employment opportunities and would address the ongoing economic crises. However, effective planning and strategies are sin-qua-non to facilitate the development of cpec.

B. How can CPEC transform the socio-economic condition

1. Cpec can Turn Pakistan into a transit corridor
2. Cpec can enhance Development in energy sector
3. 9 special economic zones in the making under Cpec
4. Agricultural reforms that will take place because of cpec
