C Conclusion.

Woman is not a frailty creature. Women can do everything which a man can do. Women can serve in every field, department where a man is serving. Women is strong as men are. There are many field where woman play their role and serving as man do. For example, Politics is the highest platform in every country. Women proved that she can serve it in. Even many women become the head of the state. Furthermore, many women serving in highest Judiciary. For example in Supreme court. Moreover, woman plays important role in nation building. However, there are still some social barriers in front of her yet she proved her self as strong as man.

In the family life. woman struggle beside her husband. even she work more than his husband. Many woman do job alongside care and nurture her children. Hence it proved that woman is not frailty.

Secondly, woman revolutionized the field of teaching. Most of the primary education is dependent on woman teaching. Research shows that woman can teach more conceptually than men at primary level. Hence it proved that woman is not frailty creature.

thirdly, women play their role in literature. A lot of books were written by women. Many of them explored the flaws of society in their writing. In this way, they acted as reformers of a society. Virginia Woolf, JK Rowling, Humera Ahmad are names to be mentioned in this regard. These women writers proved that woman is a strong creature on the earth.

Fourthly, Politics is the highest platform of a country, where women are serving beside men. Many women have been the head of state. For example, Indira Gandhi served as the ~~and~~ Prime minister of India. Furthermore Benazir became the prime minister of Pakistan.

twice. In fact, there are a lot of states where women served as a head of state. Therefore, it is proved that women is not frailty.

Fifthly, women also played their role in the field of science. Even many women explored new things in science. For example Maria Curie discovered two new chemical elements radium and polonium. Hence it proved that women is not frailty.

Sixthly, in the field of noble prize women proved that she is not weaker than men.

Many women got noble prize. For example, Maria Curie has been honoured twice with the noble prize in physics in 1903 and in chemistry in 1911. It shows that women is not a frailty creature.

Seventhly, judiciary is also a field where women is serving. Judiciary is one of the important organs of government. Its highest appellate court is Supreme Court. In fact, women

are serving as the Justice of Supreme Court. For example, Justice Ayesha A. Malik is currently serving as the Justice of Supreme Court of Pakistan. Hence it proved that woman is not a frailty.

Eightly, woman is also serving in the field of warfare. ~~She~~ She is performing her duty in war zone beside man. Furthermore, many women achieve high ranks in military. For example, Nigar Johar became ~~the~~ lieutenant general in Pakistan army. She was the first woman to reach at general level. It proved that woman is not a frailty creature.

, in the field of space, women also got the honour of astronaut. It shows that women are not weaker than man. As of August 2022, 621 total space traveler, 70 have been women in it. Hence it proved that woman is not a frailty creature.

To sum up, the above discussion showed

that woman is not a frailty creature. Even she is playing their role equals to man. The above discussions also highlighted that the achievement of women in literature, politics, judiciary and in many other fields. However, there are still some societal barriers. If these barriers are overcome, she can do more than now. Furthermore, she would be a game changer of any nation. As, Napoleon once said, "Give me an educated mother I will give you educated nation."
