

"Poverty in Pakistan"

It is the primary responsibility of the Country to ~~fulfill~~ ^{fulfill} meet the basic needs of its Country. Basic needs are Shelter, food, Clothing. When these are not fulfilled, problems arise which are called Socio-economic problems. Among all other problems poverty is one of the biggest problem, which Pakistan, is suffering. According to report, there has been an increased of 30% to 40% in the last four decades, and citizens are deprived of basic needs. Poverty further, poverty is directly affecting the future of the nation because parents cannot afford to send their childrens to school. But send the childrens to earn money and support the family at school age. Even ^{though} education plays a vital role in the progress of the Country. On the other hand, poverty is affecting the economical, sectors as well, ~~and~~, the political system of the Country.
