

foreign supervision of over a century the sufficient attention has not been paid to the education of our people. There is urgent and immediate need of forgiving technical and scientific education to our people in order to get science, trade, commerce and particularly well planned industries. We should not forget that we have to compete this world, which is moving very fast in this direction," said by **Quaid-e-Azam Muhammad Ali Jinnah**. There is a close link between education and development. **A.f** In Pakistan after more than seven decades,

the developmental indicators are not showing positive results. There are problem of teacher's training, laboratories, library and infrastructure of education sectors. Relevance to the society needs, research facilities, less resources, no arts students more than science students, ineffective governance and weak examination system are not at par international standards. This essay will throw light on the education system of Pakistan, its hurdles and solutions in coming paragraphs.
