Negligence of OIC

Members of Organization of Islamic Corporation (OIC) are inaction towards Israel despite condemning Israel's massacre. The key reason was that there was no clear plan emerging to stop the genocide. Every country member merely dropped its statements against Israel. They even did not presented a proper framework to negotiate ceasefire. Furthermore, Despite having vast economy, standing armies and having capability to deal with Israel's genocide, the Muslims world are hesitate to show their strong stance with Palestine. If Israel, were to be convinced by strong worded statements and impressive conferences, the Palestine question would have been solved decades ago. Therefore, OIC is indifferent to take serious action.
