

Comprehension - 2010

Qno:1 made

What the Galileo recant the Truth he knew-?

Ans: The cross questioning of the people recanted the truth he knew. When Galileo said that the Earth moves around the sun. People refused it, and they started torture him. They started asking question about it. Therefore, he recanted the truth that he knew about about the Earth.

Qno:2

What is the heritage being alluded to in the first Paragraph?

Ans: The heritage being alluded in the first paragraph is the old beliefs and superstitions of people. People follow the heritage of their forefathers, and they are not ready to accept the new truths. Sometimes, all the knowledge is discovered to make life easier on the Earth but people do not accept it. They follow the old beliefs and traditions.

QNO 3:

What does the betrayal of our trust imply-?

Ans: The old heritage has become the reason of betrayal because the new generation does not discover the new truths. They follow the old beliefs and ideas. Although the new knowledge is accurate yet they do not accept it. Therefore, it has become betrayal of trust.

QNO:4

Why do we need to question the old truths and work for the new ones?

Ans: Human needs to question the old truths and work for the new ones because the nature of universe and human nature, both change with the passage of time. Due to change of time and nature, the truths are also change about the universe and Earth. Therefore, human needs to ask questions and work for new ones.

(P-T-O)
