English Precise & Composition

PART-II

Question no. 2:

Answer:

Meaning Purposive Education

Among the three schools of thought regarding freedom in children's education, Rousseau galvanized the third one, which states that freedom is necessary for children to be upright. However, to the author, despite being well received, this view does not hold water as it overlooks the fact that children, on their own, can not be so virtuous. Arguably, the world today not just requires impulsive intuition to be cooperative but is in dire need of a well-coordinated, self-controlled, and disciplined community. Thus, education should

be of dual advantage and must provide both a map for advancement and a basis for children's morality and upstanding. (Total Words in Precis: 101)

Question no. 7:

Answer: Translation:

The sage said there is a mountain across the forest where the flower grows, whose fragrance restores the eye's lost light. However, the mountain is very high, with countless rocks, thorny bushes and big stones blocking the way to that. So to get their hands on that flower, a great many people came and went, but none reached that. That may be why there is grief in the world and man is searching for light.
