

Resources can be rich only when properly utilized

Outline

1. Introduction

Thesis Statement :- Humanity has been bestowed with abundant and diverse resources. However, their mishandling means that their true worth ^{of these resources} is yet to be realized. In this regard, proper utilization is the only way the ~~true~~ value of these resources can be materialized.

2. Correlation between proper utilization and value of resources

3. Mismanagement of resources — a recipe of disaster :-

- a. Causes of resource mismanagement
- b. Impacts of resource mismanagement
- c. Evidences of malhandling resources from around the globe
- d. Malhandling resources — a denial of God's favours

4. Proper utilization of resources — the exclusive path to harness their value :-

- a. Realizing the abundance and diversity of resources as the 1st step
- b. Human resource — most critical resource — deserves most attention
- c. Exploring resources and developing them
- d. Training people in resource management
- e. Using resources sustainably
- f. Just distribution of resources
- g. Developing support infrastructure to turn resource into capital
- h. Examples of success by excellent resource utilization

5. Way forward :-

- a. Increased research on resource exploration
- b. Increased focus on resource management as a discipline of study
- c. Just and fair resource distribution

- d. Global support for resource-rich, poor nations unable to utilize them
- e. Increased attention on development of human resource

6. Conclusion
