

Some people have dreams, some don't. ✓
Count me in ~~later~~ one. ✓ I was
a person with no specific goals. ✓
I always wanted to do
something for people, and
~~leave~~ a good legacy
behind. One can say that,
I was influenced by my
upbringing and my surrounding
environment or struggle in
~~childhood~~. I can't say much about
it, let's leave ~~the~~ ^{once had} past ✓
behind, as every one face it.

Anyhow, when I was in
5th semester of my graduation,
one of my fellow ~~always~~ ^{use to tell} told
the teacher ~~about~~ that, she wants
to become an Assistant Commissioner.
She ~~repeated~~ ^{repeated} this every single day.
AT that time, ~~she~~ ^{she} ~~was~~ ^{to be part of}
~~connecting~~ with any social or
political organization was ~~my~~
~~be~~ one of my dream. But
power might be right fit in
Pakistani political scenario.
Soon, I realized what I want,
~~can be achieved to~~ to be
a part of civil
service. That day, I decided
that I want to do

CSS. My teachers encouraged me to go for it. I was tensed that we don't have money for academy or any coaching bcz I know not much about services. When I completed my graduation, I gradually asked my mom that I want to join National-officer academy in Islamabad. What else but last piece of land my family owns my mom sell it and I went to Islamabad for coaching in NOA. The course was consisted upon 4.5 month. But it was a very good experience with academy with the guidance of teacher like Sir Ishaqullah (FSP) and Hassan Ali Gondal Sir Masbah Illahi and in evaluation mam Gehar-Hayat. Due to some ^{have} hostel issue I had to return home, so I only took three months of coaching in NOA, and shifted to online batch.

Due to result declaration date not issued
I was unable to apply for
CSS 2024. My teacher in
college used to tell me that
it will take 2 years ~~at~~
my level of learning for
CSS. I had watched so many
videos on internet that people
sharing their stories with 5 month
or 8 month of preparation, but
what I go through with ~~class~~
syllabus and coaching, I realized
I will take 1.5 to 2 years
for CSS preparation. After
coming back to my home it
took me almost 2 month
for deciding my strategy,
my plan. I have made a
2 year plan. From 17 Nov 23 to
