

Pakistan is a developing country.

The economy of Pakistan has been going through ups and downs for

Past many years. This economic

blight has raised concerns about the future of this country.

Pakistan has met all the goals of IMF, ^{through} ~~the~~ levying of taxes,

~~and inflation.~~ and ~~rise of inflation.~~ ^{That's not the demand of IMF}

As a result IMF has approved a loan of 18 Million Dollars.

for the economic stabilization of Pakistan. This loan will encourage the completion of uncompleted projects in Pakistan. The energy crisis will also be reduced as a result of implementation of modern technology.

Good first attempt
