Only a Healthy Population can be an Asset
Jor a Country
1 Introduction
1 Introduction Thesis statement: A healthy population helps a country to assure ellectively and
helps a country to grow effectively and
efficiently. It not only helps in development but
also avoids the wastage of human resources and
financial resources on medical expenses due
townill population. Therefore pre-emplice
measures should be taken in order to keep
townill population. Therefore, pre-emptive measures should be taken in order to keep the population healthy.
Shirting I was from the first the said was the said of the
2 Human Resource is a back bone of every system
그 아이들은 아이들은 아이들은 아이들은 아이들은 아이들은 아이들은 아이들은
3 Healthy population electively contribute to the
development of a country:
3 Healthy population effectively contribute to the development of a country: -> Strong labour force: Incoming reliable production -> Healthy employer effectively implement business Strategies and manage business activities -> High mental countries are reaccusited as immore time.
-> Healthy employer effectively implement business
Strategies and manage business activities
-> High mental assouth is poe ocquiste he innevation
> Vigorous military force: Protecting the integrity and
Sovereignty of a country
Active law and enforcement agencies: Controlling comminal activities
Healthy politicione contribute to an ellective
Healthy polibicians contribute to an effective and stable political system. - Healthy students effectively developed skills and personalities: Future leaders of a courtory
Health students ellectively developed their Kills and
