## Negligence of OIC

The Members of Organization of Islamic Corporation (OIC) are inactive towards Israel despite condemning Israel's massacre. The key reason was that there was no clear plan ~~emerging~~ to stop the Israeli genocide. Every country member ~~just~~ ~~merely~~ dropped its statements against Israel. They ~~even~~ did not even present a proper framework to negotiate ceasefire. Furthermore, despite having vast economy, standing armies and having capability to deal with Israel's genocide, the Muslims ~~would~~ are hesitant to show their strong stance with Palestine. If Israel were to be convinced by strong worded statements and impressive conferences, the Palestine question ~~would~~ have been solved decades ago. Therefore, OIC is indifferent to take a serious action.
