

## Nuclear Challenge to World Peace

### Outline.

1) Introduction

Thesis Statement

2) Crunch Paragraph

3) Nuclear Challenge to World Peace.

- a- Mutual Assured Destruction in case of war
- b- Arms race and stockpiling of weapons
- c- Disturbance of balance of power
- d- Non-Signatory states of the NPT
- e- Trust Defeciet among Conflicting states having Nuclear weapons.

4) Implications of the Nuclear Environment: Add more arguments here  
Phrase it in a more effective way

- a- Huge climate issues in already affected environment
- b- Massive Casualties in case of outbreak of a nuclear war
- c- Situation of Security Dilemma between states
- d- ~~Huge Mushroom cloud will be formed and world will enter into ice-age in case of Nuclear attack anywhere in world.~~

5) Possible Remedies for the Nukes: Phrase it properly

- a- Non-Signatories of NPT should sign it.
- b- Reduction in fissile material production

- c- Complete Disarmament of the Nuclear arsenal of the World.
- d- Non-Proliferation of Nukes.
- e- Application of 'Atom for Peace' philosophy.
- f- Conflict-Resolution methods should be encouraged.
- g- States should promote Confidence Building Measures in order to maintain Peace.

Both arguments contradict each others

b) Conclusion:
