Causes of juvenile delinquency in Pakistan

In Pakistan juvenile delinquency has multiple reasons but three are most prominent among them which

DATE: ___/___/___

1 - Individual

In individual reason the person self desires play the role. When a child observe his/her surrounding he/she experience many thing for which a desire born inside him/her. Especially the poor child who lack resource when witness other children having luxurious life desired for such life and commit crime. According to Cesare Beccaria every person has desire for more. When no legal mean a person find to achieve that desire he/she acquire the alternate way and commit crime.

2 - Family

Family also play a vital role in juvenile delinquency. The children of poor families are prone to crime easily. If parents are cooperative then children grow positively. In a family with separated parents step-mother or father, quarrel between parents, children get frusted and commit crime. Strains Theory of Martin explain that the external or the environmental pressure

Remedial measures:

1 ~~INTEL~~ Counselling

The counselling of children in minor age can be effective in reducing juvenile delinquency.

2- Effective Parenting

Effective parenting means cooperation between children and parents. From the very beginning of childhood if a child trained and entrusted by parents that the children may control themselves from criminal behaviour.

3- Adequate schooling

In Pakistan more than 25 million children are out of school. They even don't aware of the consequences of the behaviour they commit. Just like all other children they have desire of good food, ~~good~~ standard life style and quality education but they don't have means to achieve them. That is why they commit crime.

Conclusion:

To summarize, delinquency of juvenile delinquency is violation of statute by a person who has not attained the age of major. Pakistan being the populated country suffer in this regard severely. More than 24 million of children are out of school which means it has huge possibility of juvenile delinquency. The juvenile delinquency has many reason behind it cause, individual desires, family system and sociological cause are most prominent among them. Different kind/nature of juvenile delinquency could be experience which includes minor, major and heinous crimes. Although, juvenile delinquency has become common phenomena still there exist some measures which plays a crucial role in crime control, which includes counselling of individual, effective parenting and adequate schooling. Hence, how much severe the juvenile delinquency is, it could be control through a minor action of an individual.

forced children to commit crime. Means when parents are not cooperative and don't understand children's feeling they search for alternate way and commit crime.

Sociological Reason:

In sociological reason an individual peers, social circle, schooling, and neighboring are included. The children with poor neighbourhood and inadequate schooling easily get attracted towards crimes. The children who set in criminal social circle inspire by them easily and follow their footprints.

Sutherland in his differential theory explain it that a person with poor neighbourhood easily get attracted towards it. He explains that society plays a vital role in promoting or reducing crime rate in a society. which means society in the forms of peers social circles, schooling etc plays crucial role in child behaviour.
