- Teaching Critical thinking to children
- Encouraging moral art in society
- Spreading awareness and promoting education in Society.

6. Conclusion.

Introduction.

German Dictator Adolf Hitler wrote Mein Kampf while he was in jail. This book highly influenced the actions of German people in the coming years. It shows that how a piece of art can influence on enormous level, and can define intellectual and physical course of action. There are diverse examples where art promotes morality in Society. For instance, moral stories and good music. It brings people together and removes distances. But bad art often misleads and can cause violence and crimes in society. As art has both good and bad sides depending upon how it is used; Therefore, good art must be promoted and encouraged whereas the negative consequences of bad art should be mitigated through awareness and critical thinking. In short, Art is a powerful tool that impacts society on large scale. Hence, steps should be taken to get best out of it, and avoid its bad consequences.
