

Aqsa Wazir Khan

Is Pakistan ready for digitalization

1- Introduction

- Thesis statement

2- Digitalization is what Pakistan not ready for now. (Thesis)

a- Crumbling economy of Pakistan

b- Lack of necessary infrastructure like, hospitals, educational institutes etc.

c- Weak telecommunication network

d- Bad governance

e- Pakistan is one of the most vulnerable nations prone to cyber attacks.

3- Currently Pakistan is not as weak as to go for digitalization (anti-thesis)

a- Economic issues could be resolved with better policies

b- Infrastructural problem can be addressed with the betterment of economy

c- Telecommunication network also needs improvement

d- A just and regulated society can make governance better.

e- Cyber attacks could be avoided if foreign technology could be used.

4- Indeed Digitalization will give the country a boost but is not the need of the hour. (Synthesis)

a- Pakistan's foremost issue is to tackle the nearly defaulting economy.

b- For now people want relief not technology

c- Just society alone can not improve governance.

d- Improvement of telecommunication network can be avoided for some time.

e- Foreign reliance is not the long term solution

5- Conclusion
