(Paragraph) writing

Western Media and the war

Western media's biasness is exacerbating day by day towards Israel;

They have become the backbone of Israel. The key reason behind

it is hypocrisy which they have been doing for many centuries. They

give little coverage to Israel brutality, whereas they extremely highlight the every small act of Hamas.

In last four to five days, plenty of Palestinian have been killed by

Israel airstrikes. According to UNICEF report, hundreds of children have

been killed in the Israeli airstrikes, and overall casualties reached

Three thousands. These tragedies

seem to be ignored by western

media. Some channels want to highlight the other side but have been

banned, such as America TV Network.

To sum up, the hypocrisy and biasness are being elevated by western media.
