

Amna Ikram (PMS 2024)

"We are Not Known By What We say, But what 'we do'"

1: Introduction:  
Thesis Statement:

It is not the words but actions which makes a person valuable and memorable. Humanity is already suffering from the spirit of hollow promises. Hence it is imperative to correct the reasons and work for betterment.

2- Action Speaks louder than Words:  
An overview

3: Present and Future belong to those who were consistent in actions rather words

a: A Tale of leaders who win the nation not by promises but actions: The end of British colonialism in sub-continent

b: Philosophers gave birth to world's great government systems - Still Known today

c: Thomas Edison - The founder of Electric bulb known by his consistent efforts rather theories only

4: The Tale of vague actions, still causing devastation:

a: Afghanistan leadership become the symbol of oppression under the hollow promises of gender equality

b: Vague efforts in implementing Climate policies exaggerate environmental deterioration

c: UN Peace Keeping manifesto kneel under global wars and exploitation of Human Rights

5: Why a man does not take action and rely on beating around the bush

a: A man who lacks critical reasoning rely on boasting

b: Inconsistency and procrastination left the person on mercy of fake promises

c: Adults with weak emotional intelligence fear losing hence rely on mere talks

b: How can a man escape the loop of word-game and start taking action?

a: Pragmatic role of parents in bringing up confident children - Trusting their life decisions

b: Careful selection of peer group

c: Accepting failures and detoxify negative thoughts

7. Conclusion
