

✓ A Documentarian's View over Settler Colonists

One more story of Zionism

Mazin Hassan of Mashhad was an artisan by profession. After completion of his education, he started his cinema journey.

He acted as a spokesperson of Palestinian's through his film Independence, where he presented the Zionism act of Israel and his long decades oppression over Hamas's people. ~~The~~ moving forward, the writer described that during the time when Israel was increasing its annexation over Hamas, the same filmmaker send me a link of his new movie over Palestinian's issue.

This film had described that how world was becoming blinded and quite over Palestinian issue; and how world is anti cinema and even politics were being double standardized over that Zionist out of Israel.

This film is a very highly recommended.

But it is a bit long film it will only prove healthy if viewer see it without any pose.
