

Agricultural decline in Pakistan and how to counter it

Introduction Paragraph Structure (blank form)

Attention Grabber (Hook)	The sailing of Ship is always smooth until it meets natural calamity, food shortage and enemy attack. During turmoil every individual pays equally.
Connecting Sentence	(Connect your hook with the reflection of the outline) Similarly, Pakistan is sailing towards agricultural crisis which is a growing threat to Pakistan's existence and going concern.
Reflection of the outline	The declining of agriculture is evident from declining agriculture sector contribution to GDP and increasing import of food items and raw materials. The factors responsible for agricultural decline are: climate change, mismanagement of water resources, declining of arable land, soil degradation, natural calamities, lack of post-harvest infrastructure, lack of inter-provincial coordination and lack of investment in research and development. As a result, it is becoming a threat to Pakistan existence. Food inflation is increasing day by day. Moreover, there is growing competition between

Provinces and political instability in the country. Similarly, there is intensive hydro politics in South Asia. Therefore, in order to control agricultural decline, adaptation policies should be ~~adopted~~ implemented. Furthermore, water resources should be efficiently managed. Moreover, modern techniques should be adopted and the capacity of farmers should be built. Similarly, investment in research and development should be increased. Finally, ban on the development of housing society on agricultural land should be imposed.

Concluding Sentence/s

(Thesis Statement)

Pakistan production is declining day by day. Low production is subscribed to climate change, declining arable lands, natural calamity and application of outdated agricultural methods. In order to achieve a sustainable agricultural growth, robust actions should be taken to adopt modern agricultural techniques and adapt Pakistan's agriculture to climate change.

In Commercialization the biggest ill of media?

Introduction Paragraph Structure (blank form)

①

Attention Grabber (Hook)	Peter Doucker says, "Profitability is the sovereign criterion of the enterprise." When profitability becomes a primary purpose of any business, all social and moral values are only pursued for its financial gains.
Connecting Sentence	Simply, our hook with the reflection of the outline violating social and moral values for their personal gains.
Reflection of the outline	Commercialization of media obscures the primary purpose of media. It prioritizes commercial benefits over social values. Similarly, through paid content, it misleads public. Furthermore, children are jeopardising their physical and mental health by spending more time on media. In addition, digital media platforms are violating people's privacy for their financial benefits. Moreover, a government can also influence private channels by awarding public advertisement. However, commercialization of media strengthens the fourth pillar of democracy. It keeps check on government's actions. In addition, it builds trust between

③

government and its people. Moreover, it acts as bridge between business and its customers by spreading information about products and services. Furthermore, it helps children to learn new ideas. Above all, digital media provides opportunity to every person to express itself. Nevertheless, the commercialization is creating more complicated issues. It increases compulsive buying disorder. Moreover, government can control financially unstable media outlets with its fund. Similarly, private channels surrender to oppressive rules to protect itself from financial loss. Furthermore, children addiction to media has detrimental impact on their mental and physical health. Moreover, digital media becoming a tool to spread misinformation.

Concluding Sentence/s

(Thesis Statement)

The commercialization of media not only provides benefits but also creates problems for a society. However, commercialization deviates media from its primary objective. As a result, it is producing more problems rather than strengthening a society.

Council Paragraph

Date Agricultural decline in Pakistan

Importance of Agriculture for Pakistan's
Agriculture is very important for Pakistan's economy and its people's survival. It contributes to the economy growth, food security, employment generation and poverty alleviation. However, the contribution of agriculture to the GDP is decreasing. The share of agriculture to the GDP is 19.2% (Pakistan Economic Survey, 2020-21). Therefore, the sustainable agricultural growth is indispensable for Pakistan's economic and social growth.

Is Commercialization the biggest ill of media?

Role of Media in People's life:

Media plays an important role in people's lives. In the 21st century, almost every aspect of people's lives is impacted by media. From profession to entertainment, media is a major source of content for people. The media informs people about new updates in the world and creates awareness about new ideas. After COVID-19 pandemic, people are spending more time ~~time~~ on social and traditional media (Andrew Hutchinson, New Report Finds Social Media, January 2022).
