

## Power of the Women

The author has highlighted radical approach of people and their violation towards other people over persecution. He further exclaimed that violation could not be eradicated with violence for that women of the world need to unite because they are the producer of life. Like Communism, women's ~~also~~ unity can transform the violence into peace, all they require is, to loosen the rope of nationalism.

There is something radically wrong with the entire structure of human relationships that makes man delight in killing man, whether it be in the name of civilization or religion or anything else. Two wrongs do not make a right, hatred must beget hatred, and what is brought into being by violence can and will always be destroyed by greater violence. It is this fundamental truth that women have got to bring home to the people in their respective countries. No peace treaties can avail that have revenge as their basis and a self-righteous arrogance and hypocrisy in the so-called victors. Women are the natural preservers of life. Life grows from within them. They could make their influence felt if they would be big enough to rise above the walls of narrow nationalism that confine us today. Just as communism calls the workers of the world to unite, let the women of the world unite and stake all for a life worth living. Love conquers all things. We have it in us to give, if we could only realize our moral strength and non-coöperate with violence in whatsoever form it raises its head.
