Upholding Israel

America has been upholding Israel since it came into being. In every war of Israel with Arab countries, USA has been behind the back of Israel. Apart from supporting it, USA also gives backup to Israel in United Nation Security Council. Few days ago, Russia presented resolution about calling for a ceasefire, but the US pretended that this did not name Hamas. Consequently, it was rejected by many other countries along with USA. Secondly, Brazil presented an other resolution about calling for a humanitarian pause in the war to allow delivery of life saving aid to Gaza and also condemning Hamas. However, it was also ^{the} vetoed by US anyway despite gaining overwhelming majority of votes 12 of 15. Therefore, the US has continuously been encouraging Israel in every war with Arab countries.
