Title: Schools of Thought on Freedom in Education.

According to author there are three schools of thought exist. First group supports the freedom for children, regardless of what they do. Second group supports their subjection to authority. The third group says ^{OR} ^{emphasize} they should be good and free at the same time. OR (The third says they could be good without any authority). They believe education has no purpose rather than providing spontaneous environment. Writer is not agree with them, who gives no importance to education. He says success cannot be attained if their left unchecked, which third group believes could be possible through ^{He says} trained intelligence. Education provides more opportunities for growth. It provides environment for development which cannot be attained by their own. (107 words)

Can i write In writer's opinion in first line? OR
Some supports in 2nd line?
