## Introduction

population of Pakistan is growing at a large pace. This growth is recorded over the period of years.

Pakistan is the 5<sup>th</sup> most populous country in the world. According to the National Institute of Population Studies (NIPS), the estimated population of Pakistan is "229.22 million" in 2022.

Not only that Pakistan's rural population is records high in the latest census. As according to

### Economic Survey of Pakistan - ESP

"In 2022, Pakistan's urban population was 84.69 million

while rural population is 144.53 million. These facts are depicting the clear increment in the growing population of Pakistan.

## Impact of Pakistan's Growing Population On Socio-economic Climate

Growing population has direct relation with poverty in a less developing country. (LDC) with the increase in population,

Countries like Pakistan are unable to manage their resources after leads to increase in poverty. There are many people who are living below the poverty line.

According to a report submitted by Ministry of Planning and Development in the National Assembly of Pakistan, about

Rephrase the heading

The idea is right but the wording can be improved

24.3% Pakistani lived below the poverty line which translates into 55 million people.

Over crowded hospitals unable to treat the patients same

Rephrase

people are unable to get the effective health treatment even in the public hospitals. The situation is worst in the rural areas, where the patients faces the issues like lack of medicines, delay in the treatment, unhygienic condition of hospital, lack of bed, poor staff

Vague

Make it with clarity

## Over Crowded Classrooms one of the cause of "Children out of school"

One of the major reason  
of the children out of  
school is that class-  
rooms are over crowded.

This is the "Large"  
impact of growing  
population in the  
education system of  
Pakistan.

formation

Evidence :

In PSLM 2019-20, out of  
school children is 32% in  
the country with higher rate  
of female out of school  
(37%), than male (27%).

As the social benefits  
are not enjoyed by all due  
to over population, many  
people have low standard  
of living

Rephrase

The unavailability  
of equal opportunity  
for all often makes

people to live low standards of living. Even the middle income families strive very hard for their subsistence.

## Increase in Income disparities

Many of the people in Pakistan are working as a labour. Their large strength leads to the market competition. Resultantly most of them suffers with the income inequality. As people associated with the "White collar jobs" get more in a few working hours.

## Low ranking in Human Development Index

?  
The inefficiencies which are specifically the cause of popul-

tion growth leads to  
Pakistan low ranking of  
human development index. As of  
2022, Pakistan's HDI is 0.544  
and ranks 161 out of 192  
Countries

## Lack of job opportunities, Lead to unemployment

people are not very  
opportunes regarding jobs  
in Pakistan. As most of  
them are out of job market  
because of large population.

According to the Labour Force Survey  
2020-21, total labour force is 71.76m  
out of which 67.25m are employed and  
4.51m are unemployed.
