The syllabus of the study is old.

5

Students focus to gain numbers despite to understand the understanding of the study.

DRAFT FOR

6

The childern who belongs to the broken families have bad mental ability health as compared to other student.

EVALUATION

1) Impacts of Intellectual Neglecting Intellectual ability. (06)

- 1) Students will focused on the cramming - base learning.
- 2) The innovati invention of new ideas regarding anything would be stopped.
- 3) They ~~did~~ ^{will} not implements their so-called study in their practical life to get job.
- 4) They always thinks that the study will not help in their life in any way.
- 5) The students will indulge themselves in other activities such as ^{negative} use of social media.
- 6) The student will not get up-to-date knowledge.

Ways to enhance intellectual ability in our education system. (4)

- 1) More focus on the practical based learning.
- 2) There is an arrangement of awareness groups to aware the students how to do a effective study.
- 3) The teachers should develop a relation with their students to known their mental condition.
- 4) The old syllabus of their

Academics should be replaced by the up-to-date knowledge.

Neglect of enhancing intellectual ability in our education system played a very bad role in the life of a student.

The students will not get a pure form of knowledge by neglecting their intellectual ability. However, there are a lot of ways which are useful for enhancing the intellectual ability of a student.

The concept of creative writing is not present in our education system. The reason is that the teacher provides ready-made guided books to the student for the study. The students do not understand the main theme of the theme topic. Hence, students do not develop new ideas to make their work creative.

There is no activity-based learning in the education system.

The reason is that the teachers should more focus on the theoretical-based knowledge in order to complete their

- Syllabus. ~~Practical~~ base knowledge is ~~consider~~ the teachers do not focus to deliver a knowledge that is helpful in practical life. Hence, activity base learning is not get much importance in the education.

- The academic syllabus of the study is old. The ^{old} syllabus of the book does not replace by the latest edition of the book. The parents of the students were also read these book.

- The latest information is not get by the students.

Students focus to gain numbers despite to understand the main theme of the study. The ^x cruel reality of a society is that the person which gets high mark consider as a successful person. So, the students serve their fulfill effort to achieve high marks. The students do not understand the main theme of a topic.

- The children who belongs to the broken families have, bad mental health. Due to the bad mental health, the students does not focus on the study.

They feel that they do not get
~~They do not~~ that courage to nourish
their mental abilities. However, the
creation of new big ideas were
buried inside them.

The students will be focused on
the cramming based learning. The
students will be focused to cram
the basic thing. They will not have
a broader criteria regarding
to things. However, the cramming
based learning destroys their
mental abilities.

The invention of new ideas
regarding anything would be
stopped. The reason is that the
students are focused on the
guided book in order to get
marks. They do not get a
new perspective of a topic
regarding to anything. Their
mode of learning is limited
to that ideas which is concerned
with the so-called guided
books.

They will not implement
their so-called study in their
practical life to get a job.
Because, the industries
required a person which

Known the - practical learning.
There is a huge differences between the theoretical and practical knowledge. Their so-called study does not impacts any benefit in their practical life.

The students will indulge themselves in other activities such as the negative use of mobile, social media. The reason is that when students feel that their study is not benefits their life. So, they start the negative use of social media.

The students will not get up-to-date knowledge. Because, the syllabus of their study is surrounds with the old edition of the books. So, how the latest knowledge of this world is gain by the students.

There is must obligatory to the teachers that they focused on the practical base learning. Because, this method will more helpfull for the students. They are able to interpret that knowledge in their life. However, the future of the country

will change by the development of this method.

There is an arrangement of awareness group to tell the students how to do an effective study. The reason is that, a lot of students do not know the effective method of study. The responsibility of an awareness group is to ensure to inform the students about learning method of study.

There ~~teachers~~ is a ^{good} relation between student and teacher to know the mental condition of the student. Mental health play an important role for the study. The students who are good enough in their study have a very good mental health.

Lastly, the old syllabus of their academics should be replaced by up-to-date knowledge. For making a very good position in this world, a student must have ~~re~~ up-to-date knowledge regarding world.
