Climate Change Initiatives: an Eyewash by Global North

I. Introduction

Thesis Statement: The initiatives taken by global north to cope up with the pressing issue of climate change are just an eyewash.

← Thesis is your stance / understanding of topic. Not just a paragraph of raising topic.

II. Overview of Climate Change

III. How Initiatives taken by Global North are an Eyewash

- a. Not on track to meet Paris Agreement goals.
- b. International trading of greenhouse gas emissions
- c. America's history of not acknowledging climate change issue.
- d. Causing more ~~damado~~ damage to developing countries
- e. Developing countries not getting enough climate finance

IV. Way Forward: What Better Initiatives Need to be Taken

- a- Make sure countries take Paris Agreement seriously
- b- More climate finance to developing countries
- c- Ending reliance on fossil fuels
- d- Better forestry management and sustainable agriculture.

EXCELLENT

e - Effective cap-and-trade system; emission trading among firms

V. Conclusion

Reading basis
about topic is weak
esp headings III IV
lack concrete arguments

Headings should be
precise and self-explanatory
