Since the inception of Pakistan, education is the least prioritized department. The government as well as public do not give education it's due importance. education in Pakistan has given nd prominance. Reports indicates that there is decline in so-1. of budget collocation for education due to IMP bailout package. There might be allocation their demand of 108 billion rupees. In budget FY2022-23, there was 66.28 biller were allocated to HEC and 28%, needs were Julyilled by allocation. It is shown that Pakistan's education system is Jacing problems and low budget allocation is contributing in this Dyoblem. Droblem. Education system in Pakistan is becoming worse day by day. - of the children are out of school due to
lack of awareness that more girl and
- because of it more girls are at of
- School and do not condined considered
- as important to send to school and
- Calleges . The righer education system in
- Pakistan Jocises on comming rather than
- technical education. Increased weremployment

- are getting away from higher education.
- are getting away from higher education. Every ill has a panada and all
- these problems have solutions also. The
[- applement of Pakistan should try to
- increse budget for higher education and - government should introduce some
- Veducational reforms like in constitution
- of 1973, there is the free education
- from 6 to 14 years but government
- Should by to implement 11 also.
- It is not enough to write in
- constitution all these things should
- be implented. There should be
- awareness campaigns about education and
- it's importance. There should be awareness
- through media because poeple easily
- picks the things which they see
mrough social media. On the
- other hand the enemployment should
be evadicated and it can only
be happened when government
will pay heed on the educational
system of pakistan.
