Democracy protects and ensures the rule and law in the country.

Since, from many decades, the rule and law in Pakistan has been misused due to weak democratic system. Pakistan has laws related to custom duties, labour laws, taxation and environmental

laws. According to a report published by Startup Pakistan in 2022, Rs. 1 trillion ~~remains in tax evasion~~ annually in Pakistan. Thus, Democracy is one of the main source to ensure Rule and laws in the country.

Democracy ensures peace in the country. Peace is light, which spread the whole world with happiness. Peace is as important to a country as Oxygen is to human survival. Peace is directly linked with daily life of the citizens. It has great impact upon the country development, stability, sustainability, achievement and its economy. Peace can bring happiness and prosperity.

The life span of people in peaceful countries is more than in peaceful countries. The peace in Pakistan is game changer. Pakistan is very rich in natural resources for which the attraction of foreign investors and companies is required. Due to unstable peaceful environment

They are not showing any interest. Pakistan has been voted as the 146<sup>th</sup> most peaceful nation in the world for 2023 on the Institute for Economics and Peace's (IEP) most recent Global Peace Index (Daily Pakistan, July, 2023). Hence, it is proved that democracy ensures peace in the country.

Strong democratic system protect the basic human rights. The fundamental human rights of the people, protection is necessary. Every citizen of the nation has the rights of speech, freedom, religious practices and protest. The violation of basic rights of people can produce negative image of the nation globally. From many years the basic human rights of people in Pakistan has been violating. The missing persons from Balochistan and Khyber Pakhtunkhwa provinces is one of the biggest example of it. According to the Human Rights Commission of Pakistan (HRCP) as of 2022 there was over 12,000 cases of enforced disappearances in Balochistan alone. (Muhammad Sharif, Pakistan Today, July, 2023). As, Democracy is the source to protect the fundamental human rights of the people.

The Charter of Democracy build positive image of the Country. The positive image of Nation contributes essential role in the Country success. There are 195 Countries in the world today. Everyone has their own image in the world. Among them some Countries have bad image and some have good image for the rest of world. Positive image of Nation is beneficial for the continuity of the Country, while bad image is a major barrier. The positive image of a Country ensures that it is peaceful and secure Nation. This can lead the Country toward strong and friendly diplomatic relation. On the contrary, negative image can badly affect these relations among different Countries. Last month, a Khalistan leader Hardeep Singh Nijjar was shot dead by unidentified gunman in Canada. The Canadian government says Indian government carried out the killing of Canadian citizens, and showed the negative image of India to the whole world. Although, Charter of Democracy can play essential role to build up positive image of the Country.

Although is followed by yet

It is a known fact that Economy and democracy are intermingled in a way that if one is good the other gets better and vice versa.

out of 139 nations. (Ministry of Information and Broadcasting Government of Pakistan, July 2022). Thus, it is proved that a stable economy helps a lot to maintain rule of law in the country.

Instead of these peace of the country is also dependent upon stable economy. Peace in the country is that much necessary as related to living organisms. Peace in the country is key factor to sustain the country continuity. Peaceful environment can play vital role in the happiness,

Afghanistan is one of the best example: After the fall of Kabul, the Taliban government are unable to established an strong democratic system. Thus, it become safe heaven for many extremist, militant and separatist groups. Due to which the peace of

Whole region including Afghanistan are in danger. So the peace can be maintain through strong democratic system.

Democracy is main source to protect the fundamental rights of people. Fundamental rights protect the peoples. It provide identity to the citizens. They can live a peaceful and prosperous life under their fundamental rights.
