   c- Assessing Pakistan's Digital Revolution Readiness

   d- A Holistic view of Pakistan's Digital readiness.

   e- Optimizing Pakistan's Readiness for the digital revolution

6. Conclusion.

[Instructor's margin notes:]

Make specific arguments. Adopt a proper stance. For example, if you believe that Pakistan is ready for digital revolution then your heading 3 will be that. And then in subheadings you will justify why Pakistan is ready. Then counter those in heading 4 and heading 5 will be rebuttal of those counter arguments

Way too broad and unclear headings. Make them specific to one argument

Your main heading are not clear regarding the arguments
