Title: The psychological causes and the concept of happiness and unhappiness.

Although there are number of factors that lead towards unhappiness, yet there is something that is common. An unhappy man is always trying to celebrate his past achievement. By doing this, he never feels any satisfaction. Moreover, the further development in recent time is that people indulge in negative activities to achieve happiness. For narcissist the concept of happiness is desirable. Or a person who boast himself from negative activities. For him, the concept of happiness is desirable. Many people feel proud about their concept of unhappiness. They attribute to the law of nature for their unhappiness.

unfulfilled wish/desire of the past
