Abiha Fakhar

Sub-heading:

"Nuclear challenge to world peace during the 21st century"

Topic

sentence

(1)

The development of advanced nuclear weapons has been a substantial challenge to world peace in the 21st century.

Reasoning

Sentence

(2)

This is because use of less than one percent of nuclear weapons could lead to enormous loss of human life and massive destruction.

Supporting

Point

(3)

The detonation of nuclear weapons in a city would instantly kill tens of thousands of people and cause long-term effects on our natural ecosystem.

Evidence

(4)

According to SIPRI, Russia and US own about 90% of nuclear weapons that are in military stockpiles ready for potential use, imposing an existential threat to global peace. (SIPRI, June 2023)

Concluding

sentence

(5)

Hence, nuclear weapons being the deadliest weapons on earth can jeopardize the natural environment through its long-term catastrophic effects.
