

Subheading: Public Expectation from new chief

Q. Justice :

The masses of Pakistan have great expectations from the new chief justice of Pakistan, Gazi Faiz Ishaq. The expectation contains, the restoration of sanctity of the judiciary, that was damaged and polarized by recent bills, of veto powers regarding the Chief Justice, which was later suspected by eight-bench judges bench. And the second and foremost, to restore the political sanctity.

Meaning thereby, to look into issue of political workers being tried by military courts.

As per media reports more than 100 political workers are being tried by military courts, and thousands of them, including women, are facing anti-terrorism and detained under anti-terrorism laws. Concluding with the hope that the new chief justice shall do for the names and role of law.
