Sub-Heading:- Nuclear Challenge to World Peace during the 21st Century.

Topic Sentence:-

In today's era, nuclear is the biggest challenge to world peace but United States has taken a step for reversal of nuclear stockpile.

Explanatory Sentence:-

United states is trying its best to stop the production of the nuclear weapons or to terminate the nuclear weapons so that it cannot destroy the peace of the world.

Supporting Sentence 1:-

Nuclear weapons can cause damage to the world peace at high level. Countries having nuclear power can fire it anywhere in the world just to protect their own security.

Supporting Sentence (2):-

Nuclear weapons caused massive destruction before in the Japanese cities of Hiroshima & Nagasaki in 1945 where around 2 lac people lost their lives and the effect of nuclear bombing remains there for years.

Evidence:-

There is creation of arms-control architecture between US and Russia and also the establishment

of International Atomic Energy Agency (IAEA) with the ban of testing of nuclear bombs. (Ernest J. Moniz, Nuclear Non-Proliferation: Steps for 21st century, 2019)

Conclusion:-

Hence, reversal of nuclear stockpile is important for the peace of the world.
