Academic Paragraph Structure.

Sub-heading: Nuclear challenge to world peace during the 21st century.

Topic Sentence There are several nuclear challenges to world peace, chief among them is the growing concernⁿ of cybersecurity.

Explanatory or Reasoning Sentence Cyberattacks on nuclear command systems could affect their security, leading to unauthorized access or miscommunication.

Supporting Point (1) In today's world, the growing threat of cyberattacks on nuclear systems raises significant concerns about the security of these systems which can further have consequences for global stability & peace.

Example (1) Recent incidents, such as the Stuxnet worm targeting Iran's nuclear facilities (Sombing, Stuxnet Threat Analysis in SCADA and PLC Systems, 2020), demonstrate the consequences of cyberattacks on nuclear infrastructure.

Concluding Sentence. Therefore, the growing threat of cyberattacks on nuclear infrastructure highlights the advancing challenge to global peace & security.
