Nuclear Challenge to World Peace during 21st Century

Topic sentence	21 st century continues to see the proliferation of nuclear armaments which is a grave threat to world peace.
Explanatory sentence	The exponential rise of these weapons of mass destruction portends a catastrophe far greater than that witnessed in Hiroshima and Nagasaki.
Supporting point	Countries such as USA, Russia, China and North Korea aggressively participate in nuclear arms race to avoid tipping the scale of balance of power in anyone's favor.
Evidence	In January 2023 there were 9576 nuclear military stockpiles for potential use - 86 more than in January 2022 (SIPRI, World Nuclear Forces, 2023).
Concluding sentence	Hence, this escalation in number of nuclear warheads poses an existential crisis for the present day humanity.
