English Essay

Subheading

Negative effect of social media on youth.

Topic Sentence

Among the negative effects of social media there is weak eyesight.

Reasoning

The reason is the exposure to light of electronic devices especially when people continue to use it in dim to no light.

Supporting point

Furthermore, with the addition of new type of content that includes clips, reels, pictures, episodes and seasons etc, people are more glued to

social media and they use it excessively which causes blurred image, eye fatigue and weak eyesight.

Evidence

A review of 38 studies of problematic internet use among students of south-east Asia reported that 19% of the subjects experienced eye-strain.

Concluding sentence

All this shows that social media is having a negative effect on people's eyesight. It's excessive use is making it weak.
